The Group of Frogs (Encouragement)

As a group of frogs was traveling through the woods, two of them fell into a deep pit. When the other frogs crowded around the pit and saw how deep it was, they told the two frogs that there was no hope left for them.

However, the two frogs decided to ignore what the others were saying and they proceeded to **try and jump out of the pit**.

Despite their efforts, the group of frogs at the top of the pit were still saying that they should just give up. That they would never make it out.

Eventually, one of the frogs took heed to what the others were saying and he gave up, falling down to his death. The other frog continued to jump as hard as he could. Again, the crowd of frogs yelled at him to stop the pain and just die.

He jumped even harder and finally made it out. When he got out, the other frogs said, "**Did you not hear us?**"

The frog explained to them that he was deaf. He thought they were encouraging him the entire time.

Moral of the story:

People's words can have a big effect on other's lives. Think about what you say before it comes out of your mouth. It might just be the difference between life and death.

Online MUN Conference organised by II MUN'S Digital Flagship Conference 2020

It becomes a glorious moment for the school when amidst all adversities, students make it big for themselves and also bring laurels to the school by constantly upgrading themselves and clinching a place for themselves by pursuing their hobbies and interests.

Mithil L of Grade 9 D had participated in an online MUN conference that was organised by II MUN'S Digital Flagship Conference 2020. He was a part of the G-20 Committee wherein he represented the country of South Korea and received the High Commendation award in the same. Hearty Congratulations to him.

INDIA'S INTERNATIONAL MOVEMENT TO UNITE NATIONS

Certificate of Excellence

Mithil

has been awarded High Commendation in the committee G20 at
I.I.M.U.N.'s Digital Flagship Conference 2020

74th Independence Day Celebration

Despite recent adversities, referring to Covid19 pandemic situation, patriotic spirit did not fall short from soaring into everyone's heart as the country celebrated its 74th Independence Day. Most of the Institutions reached out to all, through online platforms, having virtual flag hoisting. At KLE School, Nagarbhavi, the Principal, teaching and non-teaching staff as well as the menial staff showed their gratitude and remembered all the martyrs who sacrificed their lives for the nation. They were all physically present, maintaining social distancing, as the flag was hoisted and the National Anthem sung. It was a small affair of fostering our patriotism and everyone felt proud as the National Flag fluttered high in the air.

A Friend Is A Treasure

A friend is someone we turn to
when our spirits need a lift.

A friend is someone we treasure,
for our friendship is a gift.

A friend is someone who fills our lives,
with beauty, joy and grace.

And make the world we live in,
a better and happier place.

-SRUSHTI DESHPANDE, 10D

A Friend

You came as a ray of light,
Made my life cheerful and bright,
Taking away my complete loneliness,
And giving me back all the happiness,

A friend is like a star that twinkles and glows,,
Or maybe like the ocean that gently flows,
My friendship with you is special and true,
We are like a straight line which will not bend,

I met you as a stranger, took you as a friend,
Unlike most blessings for which we pray,
Friendship is like gold that you should keep as
treasure,
And take care of forever and ever.

.Pragna GM, 7E

MY PET KITTEN

I have a little pet kitten,
Whose name is tiny Tim,
She is so pretty & cute
But she can't swim.

She is my best friend,
And our friendship will never end,
In future she will become cat,
For sleeping she needs a mat.

She has a musical voice,
The sound that comes twice,
She chases the mice,
So, she is the best and nice.

-Aditi Prasanna, 5D

MY SUPER HERO

My hero is my best friend . I adore my best friend because she is more like a superhero and less a friend . HERO is one who helps you in any kind of situation. I feel my best friend is not like other friends so she has got a perfect title for herself as a " SUPER HERO ". I feel a super hero is very important not only in my life but also in everyone's life .My best friend does not only help me in studies or sports but also in each and every aspect of my life. She is not only a hero or best friend but also my role model. I feel if I start writing about her ,I will have no words to explain or express how best or superb she is . Lastly, I would like to thank my super hero for everything that she has done for me from the bottom of my heart and hope she remains my super hero forever .This is a small gift from my side.

THANK YOU SUPER HERO ☐

-Labdi Solanki, 8C

MORAL STORIES

Three friends and a fisherman

A large pond has many fishes living in it. Of all these fishes, three are best friends, who are always together. They never leave the side of each other.

One day, a fisherman comes to this pond. Seeing lots of fishes, he invites other fishermen to cast nets. The three fishes worry about getting caught and killed by the fishermen.

The wise fish amongst them says, “We must find another pond and quickly move from here.” While one fish agrees, the other one is reluctant as he feels that this pond is their home. He says, “We should not behave cowardly, this pond is our home.”

The other two fish try hard to convince their friend, but they fail. So they decide to part ways and leave in search of a new pond. On the following day, when the fishermen arrive, the fish, which was unwilling to leave, gets caught and dies.

Moral Of The Story:

Always look at the bigger picture and let go of temporary attachments in crisis situations.

-Akash Renukaradhya, 4D

Christy: Mummy I got 9 out of 10, isn't it good?

Mummy: That's really good! Keep it up!

Christy: Ok Mummy.

The next day Christy kept her mark sheets on the tree of her school then, she went to her class to take her notes.

Christy's teacher: Christy why have you kept your sheets on that tree?

Christy: Mam, Mummy told me to keep my marks up,so I kept my mark sheets up!

Christy's teacher: Ha ha ha ha ha ha ha ha ha ha ha ha ha ha ha ha ha ha!

ಅಮ್ಮಮ್ಮ

ಅಮ್ಮನ ಅಮ್ಮ ಅಮ್ಮಮ್ಮ
ನನ್ನ ಪ್ರೀತಿಯ ಅಮ್ಮಮ್ಮ!

ಅಮ್ಮನ ಪ್ರೀತಿ ಏಷ್ಯೆಷ್ಟು
ನೀನ್ನಯಾ ಪ್ರೀತಿ ದುಪ್ಪಟ್ಟು.

ನೀನು ಮಾಡುವ ರವೆ ಉಂಡೆ
ಆ ದೇವರೆಗೂ ನಾ ಕೊಡೆನೆಂದೇ
ಕೊಟ್ಟರೆ ಸುಮ್ಮನೆ ಇರುತಾನಾ?
ಭೂಮಿಗೆ ಓಡುತ್ತಾ ಬರುತಾನೆ
ಇನ್ನು ಬೇಕು ಅನುತಾನೇ

ನಿನ್ನ ಪ್ರೀತಿಯ ಕೈ ತುತ್ತ
ತಿನ್ನುತಾ ನಾನು ಮೈ ಮರೆತು
ಕಳೆದೆನು ನನ್ನ ಬಾಲ್ಯವನು
ಸವೆಯುತ ನಿನ್ನ ಪ್ರೀತಿಯನು
ಬೆಸೆಗೆ ಬರುವುದ ಕಾಯುವೆನು
ನಿನ್ನನು ಬಂದು ಸೇರುವೆನು
ದಿನವೂ ಹಾಡಿ ಕುಣಿಯುವೆನು
ನಿನ್ನಯ ಮಡಿಲಲಿ ನಲಿಯುವೆನು

ಅಮ್ಮನ ಅಮ್ಮ ಅಮ್ಮಮ್ಮ
ನನ್ನ ಪ್ರೀತಿಯ ಅಮ್ಮಮ್ಮ!

- ಹರ್ಷಿತಾ ಉಮೇಶ್ (6 ನೇ ತರಗತಿ, C ವಿಭಾಗ)

STEREOTYPES

Stereotypes do not define
who we are

Not all poets are lonely and envy, apart
Broken, dark souls straining for light,
Outspoken and proud.

Not all musicians struggle with substance,
Or need to be introverted exhibitionist.

Not all bards are creative genius savants,
Pressed on to the pulse of passion.

And not all multi talents dance for demons,
Under the pale mocking moon,
Resolving life with ellipses.

But if you look, listen and see carefully
There are still, for statistics sake,
A foolish few of us, remaining.

- Vibha.Venkatesh, 10D

Shakuntala Devi—Human Calculator

Shakuntala Devi was an Indian writer and mental calculator popularly known as Human Computer. Shakuntala Devi was born in Bengaluru, Karnataka in a Kannada Brahmin family. Her father worked as trapeze artist. Her father discovered his daughter's ability to memorize numbers as she participated in many shows in India. She travelled to London and participated many shows in London. She came back to India in 1960 and married Parikshit Banerjee and an IAS officer and had daughter Anupama Banerjee . They got divorced in 1979 due to personal problems . She wrote many books like figuring the joy of numbers, puzzles to puzzle you, astrology for you, book of numbers in the Wonderland of numbers and the world of homosexuals .

Self Development!

Some tips to develop and improve yourself in a pandemic.

By **Vedhanth R , 10B**

Work. Everyone is facing a grim time during the current pandemic. I'm pretty sure you all need your daily dose of motivation to improve yourself, be productive, and keep yourself sane during these difficult times.

Here are some of the tips you can inculcate in your lives to become a better you...

Amplify your strengths

People don't hire you, buy from you or recommend you because you're indifferently average and well rounded.

They do it because you're exceptional at something.

What if you invested the energy to be even *more exceptional at it?*

Selling your time

We don't pay surgeons by the hour.

And if the person who cuts the lawn shows up with a very fast riding mower, we don't insist on paying less because they didn't have to work as hard.

Often, what we care about is the work done, not how long it took to do it.

And yet, some jobs, from law to programming, charge by the hour.

When you sell your time, you're giving away your ability to be thoughtful, productive, improving professionally.

Two kinds of decisions worth focusing on

HARD ONES because you know that whatever you choose is possibly the wrong path. Hard decisions are hard because you have competing priorities. Hard decisions that happen often are probably a sign that the system you're relying on isn't stable, which means that the thing you did last time might not be the thing you want to do this time.

EASY ONES because it probably means that you've got a habit going. And an unexamined habit can easily become a rut, a trap that leads to digging yourself deeper over time.

What will you do with the time you save?

Ordering in instead of cooking.

Working from home instead of commuting.

Using a dishwasher instead of the sink...

All that time saved. Now that you've got the time back, you get to choose what's truly important to you.

I would like to conclude this by bidding all you readers farewell.

Meaning of the Poem :

सरहद पे जान दिया लाखों ने
जिन्हें रखेंगे हम सराखों पे

बड़कर है एक से एक यहाँ
ध्यान इनका न जाता यहाँ वहाँ

रक्षा करते दिन रात हमारी
न भेद रखते तुम्हारी हमारी

घर आँगन का ख्याल न होता
इनमें कोई न रोता न सोता

हमारी सलाम इन्हें अर्पण है
आखिर भारत की ये दर्पण है

Rashmika Roshan ,

My brother

Like the bonding with my dad

Like the bonding with my mom

Like the bonding with my friend

Like the bonding with my teacher

I Didn't only find the goodness in them

I found that in a lifetime friend with me

That's my brother

There's a unique bonding no where you can find in the world

I felt uncomfortable when, he would play or talk with me

But when he sleeps, I felt so boring and alone

After that, I felt why should I even get angry on him?

Instead just agree to whatever he says

Now, I am happy with my brother

And I have realized that my brother is my best friend

And now I feel why I am just thinking about

this relationship in a bad way but not in a good way

-Dhruthi Ramesh, 7E

Essay on laughter

Laughter offers a number of positive organic effects on the human body. Strengthens immune system, reduces cravings even after pain, makes people more resistant to pain. Reduces the pressure, stress and increases the flexibility of muscles.

Recently laughter has been used as a healing method to assist in the speedy recovery of patients. 15 minutes of laughter every day, can also greatly help the heart and blood vessels.

Studies have shown that preschoolers laugh up to 400 times a day. Unfortunately, when people reach adulthood, the frequency of laughter decreases drastically to 17 times on an average each day.

Benefits of laughter to our physical health

As already stated in our previous post: 12 quick ways to manage stress at work. Laughter offers the following benefits to our physical health:

Humor and laughter can significantly reduce stress and anxiety.

- Laughter lowers blood stress hormones such as adrenaline, cortisone, epinephrine and dopamine.
- Promotes the production of health hormones such as endorphins and neurotransmitters.
- Assist in the production of antibodies that help the body protect against infections
- Strengths T-lymphocytes that are key pillars of a strong immune system

Exercises the diaphragm, abdominal and other body muscles so in addition to other benefits the opportunity for physical exercise helps the heart and the vascular system.

In addition:

Laughter is good for the heart

Laughter improves the function of the endothelium of arteries. Endothelium is the cell structure that covers the lumen of the vessels and is in contact with the circulating blood. The endothelium plays an important role in the genesis of atherosclerosis. Basically it is at the level of endothelial that atherosclerosis is developed leading to the hardening and narrowing of the arteries.

Researchers from the University of Maryland conducted tests about the endothelial function of arteries in a group, on volunteers with an average age of 33 years. The results showed that when the volunteers watched films that made them laugh, the functionality of the endothelium was significantly better. This translates into better blood flow in the arteries.

The observed improvement in the functionality of the endothelium after the laughter was similar to that observed after physical exercise. For this reason, researchers believe that laughter has about the same beneficial effect on the heart and arteries such as exercise.

-Continued

Beneficial effects on mental health

Creates hope

The psychological and physical relaxation generated by laughter is well known to all. It can draw your attention away from things that cause anger, guilt, stress and other negative emotions. It allows you to see difficult situations with a new perspective, more like a challenge rather than a threat.

Creates better relationships

At the social level, laughter and humor, creates bonds and better relationships with others. Also, because laughter is contagious, if we introduce into our lives more laughter this means it will help others in our environment to laugh more, which will have positive repercussions on many levels.

Improves mood

By improving the mood of those around us laughter and humor reduces not only their own stress levels but also ours. In this way the quality of our relationships is improved with benefits for everyone.

Creates better working conditions

Humor, smile and laughter can facilitate communication between employees and managers. They can create a work friendly environment where tasks are carried out effectively.

Laughing at work combats stress and promotes the relaxation of employees. The good mood and relaxation promoted by the laughter and good humor can increase efficiency and productivity. It must be stressed however that the jokes and other forms of humor should never offend anyone.

So we see that while laughter has many beneficial effects on mental and physical health, the frequency decreases drastically in adulthood compared to childhood. What can we do about it?

- Ankit Sridhar Sadlapur, 10B

Will You?

The unknown is not a bad thing	Rest of their lives	Things change overtime
Not seeing where your life is	Will you stand and fight?	For those who think
Going to end up keeps you	Will you tackle your challenges aggressively?	A happy ending is the end
On your toes, looking to see	Will you lie and cheat?	Think again
What's around the next bend	Or will you push through	There is always another page,
On the surface it appears simplistic	Rising to the challenge	Another chance,
But it's not	With optimism and determination?	Another chapter to be written
The challenges in life determine		The happy ending is only a
Who will realize their dreams	Or will you give up	Happy pause in life
And who will be stabbed to death	Because life is not about being	There is always more to come.....
By regret and doubts for the	Happy all the time,	

- Yukthi Raj, 10C

My experience of lockdown

For the first time in the 21st century a complete lockdown was enforced in India due to the entry of the dreaded virus named covid-19. It started in Wuhan, China in Dec 2019. It was March when it started spreading in India. We were in our last month of 6th grade and were preparing for our final exams. Government had announced closure of 1st to 5th grade classes.

My friends and me were very annoyed and jealous about the fact that 1 to 5 grade students did not have exams.

We wore masks, brought sanitizers and washed our hands regularly in school. We were curious every day whether there would be school the next day.

It was the night before my ICT exam that the government had announced holiday for 6th grade. Till late night, we were waiting for the SMS from school announcing cancellation of 6th exams.

The next day our principal announced that 6th grade exams have been cancelled. We shouted with joy. Then we all went home.

In April, Our Prime Minister had ordered a complete lockdown. Most covid-19 cases were detected in people coming from other countries.

My parents started watching more news. There was panic everywhere. I spent most of the time playing with my brother and surfing the internet. April was the month in which lockdown was very strict. The whole country came to a standstill. I could not go to my grandparents place. I missed my regular yearly visit to my native place.

People mostly spent more time with family. We learnt the value of hygiene and washing our hands regularly. We even learnt what are essential items needed for survival.

We had enough time to learn new things. I learnt how to program in C#

In May the cases were still under control and Government could track down how covid-19 was spreading. By this time I started getting bored. I mostly watched movies at this time. When I went to my relatives house they cracked jokes saying that I have been directly upgraded to 7th grade. Some relatives were jealous that they never got such a chance to pass without exams. People started travelling and trying to start business but lived in fear of the virus.

By this time businesses were out of money and people were making losses. People had less money in their pockets. The government let some shops open and this resulted in more covid-19 cases. The news were filled with things like the hospital ran out of beds and other things.

In June our online classes started. All the rules for the new way of learning was laid down. The first day there were many problems with camera, mic and the internet. With time, technical problems were sorted and online class etiquette was also in place. Online classes became normal and learning in new mode became as good as physical classes. However, I miss my friends and the sports activities.

Overall, Lockdown has been a once in lifetime experience. Staying healthy and safe is the most important goal of 2020.

-Pavan Bhat ,7C

Human Rights during Covid –19 times

- During Covid – 19, the question remains whether people are entitled to their basic human rights which the Constitution of India guarantees?

Yes, there is no doubt that the Government is doing its best to protect and provide its citizens their basic rights. However, this is not a time to neglect human rights.

- During these tough times of the pandemic, more than ever, human rights are needed to navigate this crisis, in a way that will allow us, as soon as possible, to focus again on achieving equitable sustainable development and sustaining peace.

Let us all attempt to know more about human rights during a pandemic.

What are human rights?

Human rights are the basic rights that does not discriminate people against caste, race, religion, gender, and color. There are many human rights which are important during covid19. Some important rights are:

1. Right to education.

2. Right to life.

3. Right to health and

4. Right to information.

1. Right to education: In this academic year, many private and well-funded schools are giving online classes for their students, however students in government schools are not getting online classes. This can be cited as an example of violation of human rights.

2. Right to life: During covid, all people should get proper health care, which cannot be ignored. But in some hospitals, they are not admitting Covid positive patients and not providing basic emergency care. Right to life and right to health and basic human rights must be protected under the constitution of India. Such denial of rights is not only wrong, but unethical and inhumane.

3. Right to health: In covid, if doctors commit medical negligence, it will be difficult. All hospitals and Doctors should try and save lives of people who are positive with covid.

4. Right to information: People should get the right information of what is happening in the country, few people send fake messages on social media, like if there is covid patient he /she will get 3 lakhs from World Health Organization[WHO] .So many people who need money went to the covid center. Hence, we should not believe on such forwards, instead check in the news or in internet and then tell the people not to send such messages. Right information is as important as right to education.

— Conclusion: Human rights is all about our duty. Our duty towards the country, fellow citizens, and society. We must respect human rights, like, paying full salary to our Domestic help which otherwise would adversely affect their right to employment. Let us uphold our human dignity by respecting our human rights in all aspects.

Thank you -By Avani Bhat- Grade 7 C

**BEING BEAUTIFUL- A BOON OR A BANE**

Sure,when you are beautiful, people give you more attention and no offence, some girls like itself-confidence increases, high self-esteem and when you look good, you feel good automatically.

Be it black, brown, fair or extra fair. According to me everyone is beautiful. We people pretend to be so modern, but in reality we aren't. Oh my god that actress is so beautiful. I also want to look like her. This is a sentence I have heard from my friends. In a society where people with good looks, fair skin are appreciated. For example: actors, actresses, models, sports persons etc. People think its their inner beauty, but after all it is not. Have you ever heard of fair and lovely, fair and handsome etc. products which make your skin fair like milk, but sorry to break it to some people, it is not true and just a waste of precious money. A beautiful person is someone who has a nice smile, kind gesture, helping nature and what not.

Not being beautiful does not justify a person and yes looking presentable is important, but in your real way and not by being fake.

-Disha Maloo ,10C

ನಮಸ್ಕಾರಗಳು ನನ್ನ ಹೆಸರು ಬೃಂದಾ ವಿಶ್ವನಾಥ್ ನಾನು ಹತ್ತನೆ ತರಗತಿಯಲ್ಲಿ ಓದುತ್ತಿದ್ದೀನಿ.
ನಾನು ಹೇಳುತ್ತಿರುವ ವಿಷಯ: ಕರೋನಾ ವೈರಸ್ ನಂತರದ ಪರಿಣಾಮಗಳು

ಈ ವೈರಸ್ ವಿಶ್ವದ ಇತಿಹಾಸದಲ್ಲಿ ಒಂದು ದೊಡ್ಡ ದುರಂತವಾಗಿದೆ. ಒಂದು ದೇಶದಲ್ಲಿ ಮಾತ್ರವಲ್ಲದೆ ವಿಶ್ವವ್ಯಾಪಿ ಸಂಭವಿಸಿದ ಈ ಬೃಹತ್ ಸಮಸ್ಯೆಯ ಬಗ್ಗೆ ಯಾರೂ ಯೋಚಿಸಿರಲಿಲ್ಲ. ಈ ವೈರಸ್‌ನ ಉಗಮದ ಬಗ್ಗೆ ನಾನು ಮಾತನಾಡಲು ಬಯಸುವುದಿಲ್ಲ. ಆದರೆ ಇದು ಭಾರತಕ್ಕೆ ಪ್ರವೇಶಿಸಿದ ನಂತರ ಈ ವೈರಸ್‌ನ ಪರಿಣಾಮಗಳ ಬಗ್ಗೆ ಮಾತನಾಡಲು ನಾನು ಬಯಸುತ್ತೇನೆ.

ಮೊದಲು ಈ ವೈರಸ್ ಇಟಲಿ ಮತ್ತು ನಂತರ ಅಮೇರಿಕಾವನ್ನು ಪ್ರವೇಶಿಸಿತು. ಇದರ ಪರಿಣಾಮವನ್ನು ನೋಡಿದ ನಂತರ ನಮ್ಮ ದೇಶವು ಮೊದಲ ಹೆಜ್ಜೆಗೆ ಸಿದ್ಧವಾಯಿತು. ನಮ್ಮ ದೇಶವು ಮೊದಲು ಹೊರಹೋಗುವ ಮತ್ತು ಅಸಮರ್ಪಕ ವಿಮಾನಗಳನ್ನು ಕಡಿಮೆ ಮಾಡಿತು. ಎರಡನೆಯದಾಗಿ ನಮ್ಮ ದೇಶವು ವೈರಸ್ ಹರಡುವ ಅವಕಾಶವಿದ್ದಾಗ "ಲಾಕ್‌ಡೌನ್" ಎಂಬ ಹೊಸ ಹೆಜ್ಜೆಯನ್ನು ಪರಿಚಯಿಸಿತು. ಆಸ್ಪತ್ರೆಗಳಲ್ಲಿ ಸಕಾರಾತ್ಮಕ ರೋಗಿಗಳ ಹೆಚ್ಚಿನ ಪ್ರಕರಣಗಳು ಇದ್ದಾಗ ಜನರು ಹೆಚ್ಚು ಹೆಚ್ಚು ಮುಖವಾಡ ಮತ್ತು ಸ್ಯಾನಿಟೈಜರ್ ಖರೀದಿಸಲು ಪ್ರಾರಂಭಿಸಿದರು. ಅದರಿಂದಾಗಿ ಮಾಸ್ಕ್, ಸ್ಯಾನಿಟೈಜರ್ ಉತ್ಪಾದನೆ ಮತ್ತು ಬೆಲೆಗಳು ಹೆಚ್ಚಾದವು. ಇಟಲಿಯಲ್ಲಿ ಯಾವುದೇ ಹಾಸಿಗೆಗಳಿಲ್ಲದೆ ಮತ್ತು ಹಾಸಿಗೆಯ ಪೂರೈಕೆಯ ಕೊರತೆಯಿಂದ ಜನರು ಸಾಯುತ್ತಿದ್ದರು. ಇದನ್ನು ನೂಡಿ ನಮ್ಮ ಪ್ರಧಾನ ಮಂತ್ರಿ ಹಾಸಿಗೆಯ ವ್ಯವಸ್ಥೆ ಕೂಡ ಮಾಡಿದರು. ಆದರೆ ಅದು ಕೂಡ ರೋಗಿಗಳಿಗೆ ಸಾಕಾಗಲಿಲ್ಲ.

ಮೂರನೆಯದಾಗಿ ಲಾಕ್‌ಡೌನ್ 2 ತಿಂಗಳ ಕಾಲ ಇತ್ತು. ಇದರಿಂದಾಗಿ ಆರ್ಥಿಕತೆಗೆ ಭಾರಿ ನಷ್ಟವನ್ನು ನೀಡಿತು. ಇದನ್ನೆಲ್ಲ ಮಾಡಿದ ನಂತರ ಕರೋನವೈರಸ್ ಹರಡುವುದನ್ನು ತಡೆಯಲು ಸಾಧ್ಯವಾಗಲಿಲ್ಲ. ಲಸಿಕೆ ಕಂಡುಹಿಡಿಯಲು ನಮ್ಮ ವೈದ್ಯರು ಮಾತ್ರವಲ್ಲ ಇಡೀ ವಿಶ್ವದ ವೈದ್ಯರು ಕಂಡುಹಿಡಿಯಲು ಪ್ರಯತ್ನಿಸಿದರು. ಯಾರಿಗೂ ಉದ್ವೇಗವಿರಲಿಲ್ಲ ಮತ್ತು ಸಂಬಳವೂ ಇರಲಿಲ್ಲ. ಆ ಕಾರಣದಿಂದಾಗಿ ಅನೇಕ ಜನರು ಬೀದಿಗಳಿಂದ ಮರಳಿದರು. ಮಾಲೀಕರಿಗೆ ಪಾವತಿಸಲು ಜನರಿಗೆ ಹಣವಿಲ್ಲದ ಕಾರಣ ಅವರು ಗ್ಯಾಮಕ್ಕೆ ಸ್ಥಳಾಂತರಗೊಂಡರು. "ಹೆತ್ತ ತಾಯಿ, ಹೊತ್ತ ನಾಡು, ಸ್ವರ್ಗಕ್ಕಿಂತ ಮಿಗಿಲು" ಅಂಬ ಗಾದೆಮಾತಿನಂತೆ, ಇನ್ನೊಂದು ಬದಿಯಲ್ಲಿ ಇತರ ದೇಶಗಳಿಗೆ ಹೋದ ಜನರು ಭಾರತಕ್ಕೆ ಹಿಂತಿರುಗಲು ಹೆಣಗಾಡಿದರು. ಎಲ್ಲಾ ಶಾಲೆಗಳು, ಕಾಲೇಜುಗಳು, ಸಂಸ್ಥೆಗಳು ಮುಚ್ಚಲಾಗಿತ್ತು. ಇದು ನಮ್ಮ ಇತಿಹಾಸದಲ್ಲಿ ಒಂದು ದೊಡ್ಡ ದುರಂತವಾಗಿದ್ದು ಅದನ್ನು ಯಾರೂ ಮರೆಯಲು ಸಾಧ್ಯವಿಲ್ಲ. ನಾವು ಒಟ್ಟಿಗೆ ಇಲ್ಲದಿದ್ದರೆ ವೈರಸ್ ಪರಿಚಯ ಇನ್ನೂ ವಿಳಂಬವಾಗುತ್ತಿತ್ತು. ಆದ್ದರಿಂದ ದೊಡ್ಡವರು ಹೇಳಿದರು ಅನೇಕತೆಯಲ್ಲಿ ಏಕತೆ ಎಂದು. ದೇಶದ ಭವಿಷ್ಯ ನಾಲ್ಕು ಗೋಡೆಯ ಮಧ್ಯದಲ್ಲಿ ಏಂದು ಸ್ವಾಮಿ ವಿವೇಕಾನಂದರು ಹೇಳಿದ್ದರು. ಈ ಮಾತು ಸತ್ಯ ಏಂದು ಈಗಿನ ಪರಿಸ್ಥಿತಿ ನಮಗೆ ಹೇಳಿಕೊಟ್ಟಿದೆ.

ಧನ್ಯವಾದಗಳು

HOW!

*It has upright ears to hear danger,
 Never would you want to see its anger.
 It has sharp teeth for killing the beasts,
 Never would you want to go near when it rests.
 It travels in a pack,
 Never come in front or you'll be it's snack.
 Wolf it is called, the warrior of the night,
 When in front wolf comes,
 One intends to forget left and right.
 In nature they are harmless to humans,
 But when troubled you experience demons.
 Hear the howl during twilight,
 Or see the yellow eyes in moonlight,
 Mesmerizing are both in their ways,
 Let them live peacefully in their nature place*

-Jinal Ajmera Grade 9D

Our Mother Earth

As I walk across the earth,
 thousands of things I get to see.
 Birds fly high, soaring higher,
 and on the flowers I hear the buzz of bees.

The sun at the dawn, rises within the hills.
 Mountains covered with snow,
 shining like the crown of silver.
 And the waves touching the cliffs.
 The waterfall flowing down
 the green-blue mountains.
 Rivers forming a dream delta
 before entering the sea.

And while walking on the beach at night,
 I feel the cool and sweet smelling breeze.
 The slashing sound still feels like
 the sound of love and peace.
 The moon over the sea,
 shining like a ball of gold.
 And in every step my eyes hold wonder.
 I bend on my knee
 to thank mother earth,
 And is the truth.
 it's a great pleasure for me,
 to live in this wonderland.

-Shraddha J A, 10C

DINACHARYA TO BE FOLLOWED IN TIMES OF CORONA

1. Getting up early in the morning at 6.30 AM keeps us active and fit
2. After brushing, gargling with hot water mixed with pinch of salt and turmeric is good to prevent Corona
3. To keep physically fit and active practice yoga /pranayama/dance taught to us in school. This helps us to stay fit and concentrate on online classes
4. Intake of food at proper time with a lot of green vegetables and water.
5. Avoid junk food and unhealthy food habits.
6. Do not watch TV for long hours.
7. Playing for some time in the evening hours.
8. Early to bed after brushing and gargling again at night .

These are few things to be followed by us to stay fit and healthy.

Face-to-Face VS Distance Communication

(It is the most important topic to discuss in the field of education)

“Once upon a time smartphones were not allowed in schools, but today school itself lies in the smartphones.” This is the most common saying from parents all over the world today.

In the present situation of pandemic, there is a need of the hour for online communication mainly for teachers and students. This has become an important means of communication at school level in today's times.

Today, the range of online teaching has brought students to an extent that they think that there is no necessity of going to schools in future. But one must remember that online learning cannot enhance the quality of teaching students as that of in classrooms. Teacher-student relationship can be best established in a classroom only. When there is face-to-face communication between the student and teacher, there is better understanding of each other. The teacher knows about the ability of the student and the student knows about the hard work of teachers in teaching.

Classroom teaching enables students to learn life skills and values which are very much required in day-to-day life. It teaches them how to live in society. Some discipline, manners and morals can also be learnt by students in schools.

Online learning also has its own merits. It shows its convenience and is considered as a low cost module. It also saves time of travelling for students so that they can engage in other indoor activities and can equip new skills and become more multitasked. At the same time, over access to online platforms is not healthy for students as their ability to remember and retain information diminishes.

Overall, virtual learning offers a good substitute to classroom learning in the time of emergency but it cannot replace the mode of imparting education and knowledge which is done in schools.

Enid @ K.L.E - Poem

When Enid Blyton writes
The stories shine brights
There are the Famous Five
And then there are the Secret Seven
But I like the Naughtiest Girl

Elizabeth is the naughtiest
I find her the sweetest
Her best friend is Jehn
She solved a problem of hers
I wish she and Jehn were my classmates
In K.L.E Society school where I study.

The Truthful Man

Once there was a CEO of a company and he was about to retire after 10 months . He often thought who would he select to be the next CEO of the company . There was an employee named Bill. Once the CEO arranged a meeting for all the employees and addressed that he would give a seed to all of them and the one who would grow the seed into a big and beautiful plant would become the next CEO of the company . Bill and other employees went to their homes . Bill told his mother whatever the CEO said and his mother supported him by watering the pot where the seed was sown everyday . After 5 months Bill saw that the seed was not growing into a sapling. He waited for another 5 months . Finally the day came and he told his mother that he would not go to office because his sapling had not grown even a little . His mother told that nothing would happen and asked her son to go to office and reveal the truth to the CEO, who may forgive him. Bill agreed to it and took the empty pot to his office . Bill was very nervous because everybody's plant was big and beautiful . After sometime the CEO arrived and checked everybody's plant . The other employees laughed at Bill as his seed had not grown. After some-time he announced the next CEO of the company , "The next CEO of the company is Bill"the CEO declared. Bill got very excited on this news . But everyone told that Bill's seed had not grown big and beautiful but the CEO told that he had given everyone a boiled seed . But though everyone was unhappy, Bill was very excited . By this story we understand that we should always be honest and truthful , so that we may succeed in our life.

Dragonfly's Visit In the Space, Aditya L1 Mission and Chandrayaan 3 Mission- The fight of the Space

Dragonfly's Visit In the Space, Aditya L1 Mission and Chandrayaan 3 Mission- The fight of the Space. The famous space agency NASA(National Aeronautics and Space Administration) is planning a trip to a special place. Titan, the largest moon of Saturn is going to be visited by NASA's medium cost rotorcraft mission, Dragonfly. This announcement was made by NASA on 27th June 2019. Dragonfly is a rotorcraft designed to fly across the skies of the enormous and potentially life- Hosting the moon of Saturn. NASA, is preparing to launch the famous 'Dragonfly' in the year 2026 and according to their prediction/timeline, it will land on Titan after Eight years. For at least 2.5 years, the probe will survey the 5,149.46 km wide moon and gather a variety of data. It is thought that Titan could offer a habitable environment due to a buried ocean of liquid water beneath the moon's icy bedrock. If there is indeed life on Titan, The Pride, Dragonfly is going to detect it. But, even our Kohinoor of our Prestigious India, ISRO is also trying to gain it's name after the failure of the Chandrayaan 2. It is going to launch not 1, but 3 satellites, named Aditya L1, Mars Orbiter Mission 2 and the famous satellite name, which has already it's 2 versions, is the Chandrayaan, which is launching Chandrayaan 3 with the Aditya and MOM 2(Mars Orbiter Mission 2) Satellites in different places. The interesting thing is that these 3 satellites are going to 3 different planets! Mars Orbiter Mission 2 is going to reach Mars for the second time by 2024. Aditya L1 is going to study the Sun's Corona(outermost part of Sun's atmosphere) which is expected to launch at the end of 2020. Chandrayaan 3, Our pride, is going to the planet also referred to as 'Morning Star/ Evening Star', Venus. By now, everyone wish is to see the space, be an astronaut, work in ISRO, as I like to work in ISRO, would be our future scientists of India and make many rockets like our Chandrayaan 3, MOM 2, Aditya L1 etc. being a part of our nation's pleasure and honour.

**Stan Lee - An Actual Marvel** Source- Wikipedia

This article is about the famous comics' creator, Stan Lee, who helped create the Marvel Cinematic Universe, Marvel Comics Universe, etc.

Stan Lee was an American comic book writer, editor, publisher and producer. He rose through the ranks of a family-run business to become Marvel Comics' primary creative leader for two decades, leading its expansion from a small division of a publishing house to a multimedia corporation that dominated the comics industry.

In collaboration with others at Marvel—particularly co-writer/artists Jack Kirby and Steve Ditko—he co-created numerous popular fictional characters, including superheroes Spider-Man, the X-Men, Iron Man, Thor, the Hulk, Black Widow, the Fantastic Four, Black Panther, Daredevil, Doctor Strange, Scarlet Witch and Ant-Man. The superheroes he created seemed more meaningful and realistic. In doing so, he pioneered a more naturalistic approach to writing superhero comics in the 1960s, and in the 1970s he challenged the restrictions of the Comics Code Authority, indirectly leading to changes in its policies.

Stanley Martin Lieber was born on December 28, 1922, in Manhattan, New York City, in the apartment of his Romanian-born Jewish immigrant parents, Celia and Jack Lieber. He had one younger brother named Larry Lieber. He said in 2006 that as a child he was influenced by books and movies, particularly those with Errol Flynn playing heroic roles. By the time Mr. Lee was in his teens, the family was living in an apartment at 1720 University Avenue in The Bronx. He attended DeWitt Clinton High School in The Bronx. In his youth, Mr. Lee enjoyed writing and entertained dreams of writing 'The Great American Novel' one day. He said that in his youth, he worked such jobs like writing obituaries for a news service and press releases for the National Tuberculosis Center; delivering sandwiches for the Jack May pharmacy to offices in Rockefeller Center; working as an office boy for a trouser manufacturer; ushering at the Rivoli Theater on Broadway; and selling subscriptions to the New York Herald Tribune. At fifteen, Mr. Lee entered a high school essay sponsored by the New York Herald Tribune, called 'The Biggest New of the Week Contest'. He claimed to have won the prize for three straight weeks, goading the newspaper to write him and let someone else win. The paper suggested he look into writing professionally, which Mr. Lee claimed "probably changed my life". He graduated from high school early, aged sixteen and a half, in 1939 and joined the WPA Federal Theatre Project.

He married Joan Clayton Boocock, originally from Newcastle, England, on December 5, 1947, and in 1949, the couple bought a house in Woodmere, New York, on Long Island, living there through 1952. Their daughter Joan Celia "J.C." Lee was born in 1950. Another daughter, Jan Lee, died a few days after her birth in 1953.

The Stan Lee Foundation was founded in 2010 to focus on literacy, education, and the arts. Its stated goals include supporting programs and ideas that improve access to literacy resources, as well as promoting diversity, national literacy, culture and the arts. Mr. Lee donated portions of his personal effects to the University of Wyoming at various times, between 1981 and 2001.

Mr. Lee eventually retired from convention appearances by 2017. On July 6, 2017, his wife, Joan, died of complications from a stroke. She was 95 years old. Mr. Lee died on November 12, 2018, six weeks before his 96th birthday at Cedars-Sinai Medical Center in Los Angeles, California, after being rushed there in a medical emergency earlier in the day.

Roy Thomas, who succeeded Mr. Lee as editor-in-chief at Marvel, had visited Mr. Lee two days prior to his death to discuss the upcoming book 'The Stan Lee Story', and stated "I think he was ready to go. But he was still talking about doing more cameos." Stan was always up to do some more cameos. He got a kick out of that more than anything else.

In the late 1950s, DC Comics editor Julius Schwartz revived the superhero archetype and experienced a significant success with its updated version of the Flash, and later with super-team the Justice League of America. In response, publisher Martin Goodman assigned Mr. Lee to come up with a new superhero team. Mr. Lee's wife suggested that he experiment with stories he preferred, as he was planning on changing careers and had nothing to lose. Mr. Lee acted on that advice, giving his superheroes a flawed humanity, a change from the ideal archetypes that were typically written for preteens. Before this, most superheroes were idealistically perfect people with no serious, lasting problems. He introduced complex, naturalistic characters who could have bad tempers, fits of melancholy, and vanity; they bickered among themselves, worried about paying their bills and impressing people, got bored or were sometimes even physically ill. To maintain his workload and meet his deadlines, he used a system that was used previously by many comic-book studios, but due to his success with it, it became known as the Marvel Method. He would first brainstorm a story with the artist and then prepare a brief synopsis rather than a full script. Based on the synopsis, the artist would fill the allotted number of pages by determining and drawing the panel-to-panel storytelling. After the artist turned in penciled pages, Mr. Lee would write the word balloons and captions, then oversee the lettering and coloring.

Mr. Lee has achieved many things in his long life, and a list, if prepared, would be enormous. All the Marvel and DC fans out there are enjoying his comic books even after his death. Long Live Stan Lee- A True Marvel.

FUN FACT: The Marvel/ Stan Lee fans are called 'True Believers'!

RACISM

What is up with the world lately? I mean with all the technological, scientific, industrial and educational advancements - I thought there would be no false social practices. Well, I'm wrong. RACISM is being brought to light again by some really terrible and awful people. Racism is a social malpractice which is followed by some disagreeable people. Shockingly, the recent incident which took place in America - where an innocent (George Floyd) was killed by the police just because of his "skin colour" has raised awareness around the globe about racial disparities. This incident created a global awareness about the ongoing racism, discrimination and prejudice - which everyone or most of them thought was reduced long ago. Many protests, strikes and peace camps were started by people across the country for justice towards those who were being treated inferior. This antagonism hostility is almost spread worldwide, and is nothing less than a pandemic or a slow poison to the whole community. One question to all the racists out there - what can you decide about a person judging by the colour of their skin or the caste to which they belong or what religion they follow? Just because the man is a black, for instance, you just abuse him and kill him? What has the poor person done for you to take such amateurish decisions or actions?

The so called "Racists" should be treated the same way as they treat the others. Only then will they understand that this beautiful world is of only one race, which is - the HUMAN RACE. What can a person gain by insulting, assaulting, abusing a person from a different race? Is it the fun or the pleasure or the happiness? Well, then - hear me out - go and feed the poor on the streets, donate to the orphans, raise a fund and help those in need, spend the time with your family and friends - and look at the happy faces you get to witness; what more do you need to experience the bliss and the pleasure? Racism tears the justice and equality of the nation, and should definitely be stitched back together to the national fabric by being united through the voices of the world.

Bringing an end to this deadly discrimination which is nothing less than an increase in the national development and growth. Racism should be reduced as much as possible as it is such a hateful and a horrendous practice. Everyone in the nation should come forward and raise their voices to eliminate racism. Awareness about the same should be done internationally. Doing so and achieving it at the same time, would take us a step forward to world peace. None should judge a person by his appearance or race, his heart and soul is what matters. Look and reckon by the person's kindness and not by colour of the skin. Change is required to eradicate the fatal discrimination, and the change can come only if we are brave, courageous and strong to take the first step towards creating a new world without any social malpractices. Racism is a darkness, and the darkness cannot be removed by the dark itself - it needs light. We are the light and we can strike out the darkness and bring the whole world together not by any different race - but as HUMANS.
